A BUOYANT RISE IN SUGAR

Materially Assisted the Late Recovery in Prices-Liquidation Was Apparent in the Bond Market as Well as in Stocks.

NEW YORK, May 9.—There was further large liquidation of stocks in the market to-day, and prices were at one time from 1 to 2½ points below last night for a large number of the active railroad stocks. Be-

large liquidation of stocks in the market to-day, and prices were at one time from 1 to 2½ points below last night for a large number of the active railroad stocks. Before the close of the market the losses were fully retrieved in many stocks, and in not a few of those which had been most acutely affected by the selling small net gains were established.

The late recovery was materially assisted by a buoyant rise in Sugar to a level 5¼ above last night, and by rather positive strength in the principal metal stocks. The appearance thus given was that of the completion of a spasm of liquidation and the subsequent covering of belated outstanding short contracts and a buying of stocks by careful observers, who had stood by watching for the low point of the market to get in.

How well this appearance is justified by the actual conditions can only be demonstrated by future events. That there was very powerful and skillful manipulation in the market all day was clear from many indications. Evidently the process of liquidation was largely concentrated in a few hands, and it was conducted by concerted understanding and with a diligent nursing of opportunities.

On any considerable decline the pressure of the selling promptly relaxed and supporting orders were executed, which over and again checked the decline and drove the bears to cover their short contracts. The efforts of the bears to cover were met by aggressive bidding up of prices in the Interest of several of the most prominent stocks, but every time when prices recovered to near last night's close the volume of buyling orders fell off and eventually ceased. From the renewed vantage ground of the recovery the food of liquidation was then renewed.

The volume of dealings on the recoveries was palpably much less than that on the decline, and the aggressive bidding up of prices showed that the object was rather to establish a higher level of prices than to secure stocks on the most advantageous terms. That a turning point must ultimately be reached after such a peri

of the news of the day any appa-None of the news of the day any apparent bearing on the movement of prices. Engagements of gold for export to Parls, which amounted to a little over \$2,800,000, proved slightly larger than the preliminary estimates. The action of the Bank of England in advancing its paying price for American eachs half penny to 76s. 4d. carried the intimation that London might tollowing the example of Paris and offer special inducements to attract gold from New York. But the measure taken is not sufficient to accomplish this, according to the opinions for publication of foreign experts.

rufficient to accombinations at the account of foreign exchange experts.

The local money market also showed a slightly hardening tendency, especially for time loans, which showed the possibility of an automatic check to the gold export movement in case of any increased need for money here. All of the trunk lines, the Pacifics, the Atchison, Missouri Pacific and Louisville were special sufferers from the liquidation. The firmness of the steel stocks was doubtless due to the large liquidation aiready affected in them and the outstanding short interest. This condition made them available for manipulation for a rise to help sustain the market. Liquidation was in evicence in the bond market, as well as in the stock market, and high-grade bonds were affected along with the speculative issues. Total sales, par value, \$1,970,000. The rumor is being revived that negotiations are being made for the purchase of the plants of the leading tobacco exporters in Petersburg. Tobacconists, said to be connected with the deal, deny the report. Others not interested, but in a sition to know, say that negotiations are still going on, and that the object of the deal will be to organize the International Tobacco Company for the control of the export trade.

EXEMPT FROM TAXATION.

A Citizen Asks for a Mandamus to

Have Property Assessed.

LYNCHIBURG, VA., May 9.—Special.—

For the past fifteen or twenty years

Lynchburg has been exempting new enterprises from city taxation, until there are to-day a large number of wealthy corpora-tions, including several that are by no means new enterprises, which are paying 10 city taxes.

To-day Mr. A. F. Thomas, a well known dealer in leaf tobacco, sent a petition to Judge Whittle, of the Circuit Court, asking him to grant a mandamus to compel the Commissioner of Revenue to assess this property for taxation just as all other coperty is assessed. It is estimated that in Lynchburg nearly one million dollars invested in industries escapes taxation. It is not known whether or not the city will make a defence.

jumped a coal train and went on east as far as Dwight, then changing direction, took a coal train back west. Cyclone Branch was wired to take them in at Suf-folk. He arrested two men at that place, thinking he had the sinners. In this he was mistaken, as it turned out, as he went to Waverly on the Cannon Ball and there found all three of the robbers and brought them here for trial. Constable Branch telegraphed to Suffolk and had the two negroes released. A full confession from the rob-bers was freely made to the officer.
